SMALLPOX IN NAPLES.

During the week ended October 10, 4 cases of smallpox were reported at the health office of the city of Naples.

Smallpox in Italy.—Week ended October 4: Cases: S. Giovannia Teduccio (Naples) 1; Marsico Nuovo (Polenza) 1; Giffone, 19, Polislemo (Reggio Calabria) 1.

JAPAN.

Report from Yokohama—Inspection of vessels—Plague in China—Cholera at Moji—Plague on island of Awaji, vicinity of Kobe.

Passed Assistant Surgeon Cumming reports, October 1:

Bills of health were issued during the week ended September 26 to 5 vessels having an aggregate personnel of 78 cabin passengers, 214 steerage passengers and 503 members of crew.

The crew of the steamship *Benvenue*, for Manila, were bathed, their effects disinfected, and the forecastle, etc., cleaned.

During the month ended September 30, 105 would-be emigrants were inspected, of whom 84 were passed, 71 of those passed being certified. One hundred and thirty-seven persons were bathed and 293 pieces of baggage disinfected.

There has been no quarantinable disease reported in this city. The authorities are very vigilant against the introduction of cholera from Moji, at which place there have been 70 cases, besides others in the neighborhood.

Plague is reported raging in Chang Shan, China, near Tientsin and Peking. This place is also near Ching Wang Tao, the great winter port of north China, whence vessels are now sailing to America.

A severe epidemic of plague is reported on the Island of Awaji, near Kobe. Forty-eight cases, all but 5 fatal, have already been reported.
